

PRESS RELEASE

Verifavia Shipping EU MRV verifier of choice for Campbell Shipping Company

Campbell Shipping Company Ltd, the largest Owner/Operators of dry bulk carriers in the Bahamas, recently announced that it has appointed Verifavia to verify its fleet of vessels in line with the European Union’s Monitoring, Reporting, and verification (EU MRV) regulation.

Verifavia Shipping will provide EU MRV services to Campbell Shipping, including the assessment of monitoring plans and verification of carbon emission reports according to the ISO 14065 standard and regulation 757/2015.

Capt. Neville Quadros, Marine & HSEQ-Risk Manager , Campbell Shipping, commented, “With our modern fleet of ships and the ongoing efforts of those working on our dedicated QUALSHIP 21 E-Zero Program, Campbell Shipping remains committed to ensuring that the impact of our operations on the environment is minimized as much as is practically possible. Working with Verifavia ensures that we are on track to meet and exceed our EU-MRV responsibilities and to achieve timely compliance with the requirements mandated by this environmental regulation.

Our experiences thus far with Verifavia have been very positive and we are certainly convinced of their knowledge, capabilities, and professionalism. The team's extensive previous experience in aviation speaks volumes and we have no doubt that, as an independent verifier, Verifavia will be responsive and efficient in working with us to achieve regulatory compliance.
